

## OVERVIEW

BelleCore's babyBelle® & HoneyBelle® bodybuffers utilize a dual action combination of random orbital oscillating and pulsating motions to deliver a powerful soft tissue massage. The strong vibrations penetrate the deep tissues and break up rigid collagen bridges responsible for the unseemly dimples characteristic of cellulite. Enhanced blood and lymphatic flow and powerful exfoliation all result in smoother, younger looking skin. The bodybuffers are CE certified, FDA registered and listed as 510(k) exempt class 1 devices.

*Dual Action Motion*

## CLINICAL CELLULITE TRIAL

In an independently conducted consumer trial a test group of 25 women used the bodybuffer twice a day for 4 weeks:

- 95% reported smoother skin;
- 70% statistically significant improvement in the appearance of their cellulite

## TESTIMONIAL\*

*"It's been 3 weeks and I am definitely seeing my cellulite smoothing out - and it makes my muscles feel alive. I am thrilled with it and will continue to use it. This absolutely does what it says. Your product should be in every woman's life." Patty, NY*

**ADDITIONAL TESTIMONIALS**

"I'm someone who exercises a lot, I'm small and thin yet nothing has ever improved that jiggle problem which only gets worse as I age. So the improvements I feel in my legs are amazing and fantastic and worth the price of the bodybuffer alone, but, on top of that, my cellulite is also better." **Ke, OK**

"After years of living with cellulite, the dimples are melting away, my skin is firmer, it almost glows - and using it on my calf and thigh areas after running gets rid of that tight, sore feeling. THIS IS GREAT." **Barbara B, CA**

"It's a great stress reliever in addition to it battling cellulite. I've been using it on my arms, mid-section, rear, and thigh areas. In just two weeks I have noticed significant improvements. I'm recommending it to all my friends." **Bibi, FL**

**INDUCTED INTO THE NEIMAN MARCUS HALL OF FAME 2013**

**WINNER NEIMAN MARCUS BEAUTY AWARDS**
